KELLEY INFLATABLE SEALS AND SHELTERS: The Ultimate Energy Seal.

KELLEY INFLATABLE SEALS AND SHELTERS PROVIDE the ultimate energy seal for climate-controlled loading docks. With a wide variety of models to meet your specific needs, Kelley inflatable seals and shelters improve energy efficiency with little or no pressure on your building walls.

Kelley KI-325 V-Seal with Inflatable Header

The KI-325 provides the insulating benefits of a dock seal and full trailer access like a dock shelter. The inflatable head curtain provides a tight seal without impeding trailer access at the top while providing flexibility for varying trailer heights.

Features:

- V-Seal side pads with inflatable header
- Wall-mounted blower located above the seal
- Can be interlocked with other dock equipment for improved performance and efficiency

Kelley KI-350 Inflatable Dock Seal with Variable Height Head Member

Designed for taller doorways and loading docks that serve a wide variety of trailer heights. Head member seals across top of trailer.

Features:

- Variable-height, air-inflated head member adjusts to different trailer heights.
- Head member includes torsion-spring retraction system.
- Head and sides inflated with low-pressure, high-volume blower motor.
- Ideal when minimal building wall pressure is desirable.

Kelley KI-400 Inflatable Peripheral Dock Shelter

Designed for wider and taller doorways and loading docks that serve a wide variety of trailer sizes, including trailers with extended tailgates or hydraulic lifts.

Features:

- Head and side members adjust to seal a wide variety of trailer sizes.
- Head and side members retract completely out of the contact area.
- Provides full width and height access to interior of trailer.
- Can be interlocked with other dock equipment for improved performance.
- Minimal building wall pressure exerted through dock shelter.

Kelley KI-450 Rigid Frame Inflatable Dock Shelter

Designed for wider and taller doorways and loading docks that serve a wide variety of trailer sizes, including trailers with extended tailgates or hydraulic lifts.

Features:

- Head and side members adjust to seal a wide variety of trailer sizes.
- Head and side members retract completely out of the contact area and store behind heavy-duty face curtains.
- Provides full width and height access to interior of trailer.
- Can be interlocked with other dock equipment for improved performance.
- Minimal building wall pressure exerted through dock shelter.

Kelley KI-310 Inflatable Rail Shelter

Designed for effective sealing of a wide variety of rail loading dock applications. Available in either three-sided or four-sided versions.

Features:

- Features durable one-piece unitized construction.
- Includes low-pressure, high-volume blower motor.
- Automatically adjusts to variations in rail car width.
- Available in a wide variety of width, height and projection sizes.

Standard Inflatable Dock Seal And Truck Shelter Fabric

10 oz. per sq. yd. vinyl-coated fabric (black, blue). Contact your Kelley distributor for availability of optional fabrics and colors.

Make Your Kelley Safety Solutions Even Safer

KELLEY DOCK DEVICES, including trailer restraints, dock doors, inflatable seals or shelters, dock lights and security systems, can be integrated together in a Master Control Panel. Integrating this equipment is a simple way to improve productivity, security and environmental control on your loading docks.
