

Roller Doors A&B Series
MADE IN NEW ZEALAND

**AceDoors continuous curtain steel Roller Doors are
a quiet, simple and economic solution for openings in
a vast range of environments.**

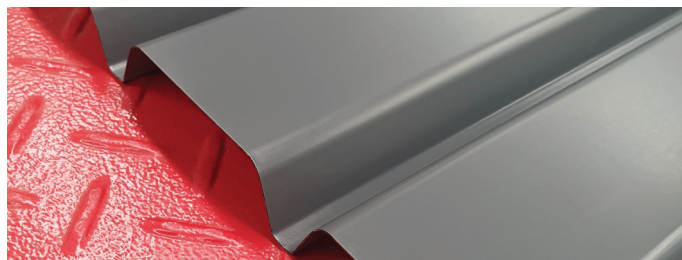

RESIDENTIAL AND LIGHT COMMERCIAL ROLLER DOORS

A-Series

AceDoors A-Series Roller Door for the domestic market delivers a classic corrugated profile complementary to many New Zealand roofing and cladding designs. It is a versatile style for many applications including single car garages, small workshops, farm sheds, and storage facilities.

- Available in 0.4 BMT Colorsteel®
- 14mm corrugation depth
- Available in sizes up to 3m height and 3m width

B-Series

AceDoors B-Series Roller Door offers a deeper, stronger profile while maintaining a fluid design for slightly larger openings in a residential or light commercial setting. This style is suited for vehicle lock ups, agricultural facilities, workshops and much more.

- Available in 0.4 BMT Colorsteel®
- 21mm corrugation depth
- Available in sizes up to 4m height and 4m width

Features

Roller Door Curtain

AceDoors Roller Door curtains are made from 0.4mm gauge Colorsteel Endura® coil, which is also used for roofing and cladding in New Zealand.

Sprung Axle

All Roller Doors are sprung. This allows easy manual operation and as a safety measure supports the curtain.

Operation

Motorised

Single phase opener, safety reverse feature, simple installation and quiet operation. Includes 2 remotes.

Manual

Simple manual operation by D-handle or a hand chain pulley for higher doors. Pulleys on larger doors are geared for easy operation.

Durability

An aluminium bottom bar fitted with a rubber weather seal to minimise dirt, leaves or other undesirable matter entering your home provides additional strength to the door.

Guides

AceDoors Roller Door guides use Nylofelt for greaseless operation. This keeps operation exceptionally quiet and smooth and allows for much lower levels of maintenance.

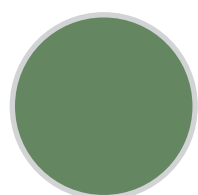

Options and accessories

- Reverse rolled door option for external installation
- Centre lock for full security on manual operation
- Bird proofing brush option available

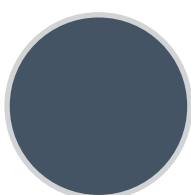

*Conditions apply.
