

**Preventative maintenance
will help save your
business money.**

**Call or email our friendly team today to book in preventative maintenance for
your commercial doors.**

Roller Doors and Roller Shutter Doors, just like all large mechanical devices, require regular servicing and maintenance in order to ensure safe and reliable operation.

In fact, It is recommended that high use door be serviced every 3 months and medium use commercial doors every 6 months. Scheduled preventative maintenance can help reduce down time to your business caused by breakages, and increases the lifespan of your investment.

All too often we find doors are being neglected, resulting in failures and safety hazards. Ensuring that you, your team, your customers, and your property are kept safe is crucial. Why take the risk only to gain short term cost savings?

Being a manufacturer of new doors we can manufacture replacement parts for most doors in-house quickly and to the specific requirements of your door in the event of break down or damage.

Talk to us today about how we can make repairs and preventative maintenance easy and cost-effective for your business.
